

# Wyse® Winterm™ 9150SE

High Performance, Affordable Windows XP Embedded Thin Client

The Wyse® Winterm™ 9150SE is a high performance, yet affordable, small form factor Windows XPe Embedded thin client in a solid, classic form factor with both legacy and high-speed I/O ports.

Wyse is the vendor the world's largest businesses and institutions trust to implement scalable network-centric computing solutions. Wyse hardware, software, and services ensure customer's desktops are secure, reliable, and agile, preserving capital and increasing productivity.

Wyse® Winterm™ thin clients are a better way to deliver Windows® applications to users throughout your enterprise — especially task-oriented and general office workers. Our broad range of thin-client devices provides security, manageability, affordability, and reliability. They offer greater ease of use, deployment, and administration than any other desktop option.

The Wyse® Winterm™ 9150SE offers a low cost, entry-level alternative while maintaining the performance and functionality required by the Windows XPe thin client market.

Featuring an optimized AMD Geode™ GX processor, the Winterm 9150SE delivers exceptional performance with low power usage and cooler operation within a compact form factor. The integrated video chipset drives excellent video performance that reduces eyestrain and meets stringent European resolution and clinical health care requirements. Powered by the Microsoft XP Embedded OS, the Winterm 9150SE supports a full local browser with multimedia and can run 32-bit, 16-bit, and Java local applications.

As with all Winterm thin clients, the Winterm 9150SE comes bundled with Wyse<sup>TM</sup> Rapport® (Workgroup edition), the enterprise client management tool that leverages the value of your IT infrastructure for maximum ROI.
